

Morefield Achieves Cisco Gold Provider Status

Only MSP in Pennsylvania to hold Powered Service designations in three Cisco Meraki specialties

October 24, 2022 (Camp Hill, PA) – Morefield, a Managed Service Provider and technology company, proudly announces it earned the designation of Cisco Gold Provider, with capabilities in three Cisco Powered Services: Meraki Access, Meraki SD-WAN, and Meraki Security.

Morefield earned the Cisco's Gold level designation, after a rigorous review of their capabilities of enhanced support throughout their managed services practice. Cisco evaluated Morefield on its ability to meet specific metrics and key performance Indicators (KPIs) around expertise in delivering best in class solutions for clients. The solutions include Cisco's Meraki offerings, end-to-end client incident management and process, and exceptional client satisfaction. Cisco's Gold Provider audit verifies these deliverables ensuring reliability, security, and support throughout the company including, technical support, sales, marketing, project management, accounting, human resources, and leadership.

"We are excited and proud of our team on this great achievement. We are continuously looking for ways to grow our MSP practice to provide our clients the best technology solutions that manage risk and accelerate digital transformation within their organizations," remarked Wes Kelly, President of Morefield. "Cisco's portfolio provides services and solutions for flexible and dynamic infrastructures that can evolve with the needs of our clients. I'm proud of our talented team for achieving this level of recognition by Cisco so that we can take our clients to the next level of service and solutions."

As a Cisco Gold Provider, Morefield is at the highest level of knowledge and skills required to implement Cisco solutions. Morefield has been a Cisco partner for over 25 years. In addition to Gold Provider status, the company is a Premier Integrator and holds specializations in Cisco Advanced Collaboration Architecture, Cisco Webex Calling, and Cisco Webex Contact Center.

Morefield is the only Gold Provider in Pennsylvania to hold Powered Service designations in these three Meraki specialties. There are less than ten companies nation-wide that hold Cisco Gold Provider role with Power Services credentials in Meraki Access, Meraki SD-WAN, and Meraki Security.
