

**Morefield Names
Ben Gilkey as Vice President
of Sales**

*Former Morefield employee returns to drive the next phase
of company growth*

Camp Hill, PA -- Morefield, a full-service managed services company, announced today the appointment of Ben Gilkey as Vice President of Sales. Gilkey, who previously served as a Sales Representative at Morefield from 2010 to 2019, returns to the company after successful leadership roles at Core BTS and Marco Technologies. He joins Morefield's executive team and will report directly to President & CEO Wes Kelly.

"We are thrilled to welcome Ben back to Morefield," said Kelly. "His proven leadership abilities, combined with his deep understanding of our company culture and commitment to customer success, make him the ideal person to lead our sales organization. Ben's track record of building high-performing teams and driving substantial growth aligns perfectly with our vision for the future."

Most recently, Gilkey served as Director of Sales Mid-Atlantic at Core BTS, where he led his team to increase revenue from 2021 to 2024. Prior to that, he successfully built and developed an IT sales team from the ground up as IT Sales Manager at Marco Technologies in a new growth market.

"Returning to Morefield feels like coming home," said Gilkey. "During my previous tenure, I witnessed firsthand the company's unwavering commitment to client success and technical excellence. I'm excited to bring my expanded leadership experience back to Morefield and work alongside this talented team to drive our next phase of growth."

As Vice President of Sales, Gilkey will drive sales strategy, team development, and revenue growth across Morefield's technology solution offerings. He will leverage his extensive experience managing complex client relationships and developing strategic technology roadmaps.

About: Morefield is a Managed Services provider and full-service technology company specializing in managed services, cyber security, IT support services, networking, collaboration systems, unified communications, access control and premise security, and audio/video technology.
